 How It Works

From resume to report in three steps

No complicated setup. Just upload, practice, and improve.

01 Scan & Optimize Resume

Drop your PDF to get an instant ATS score. Generate a fully optimized, keyword-rich resume using our AI before your interview.

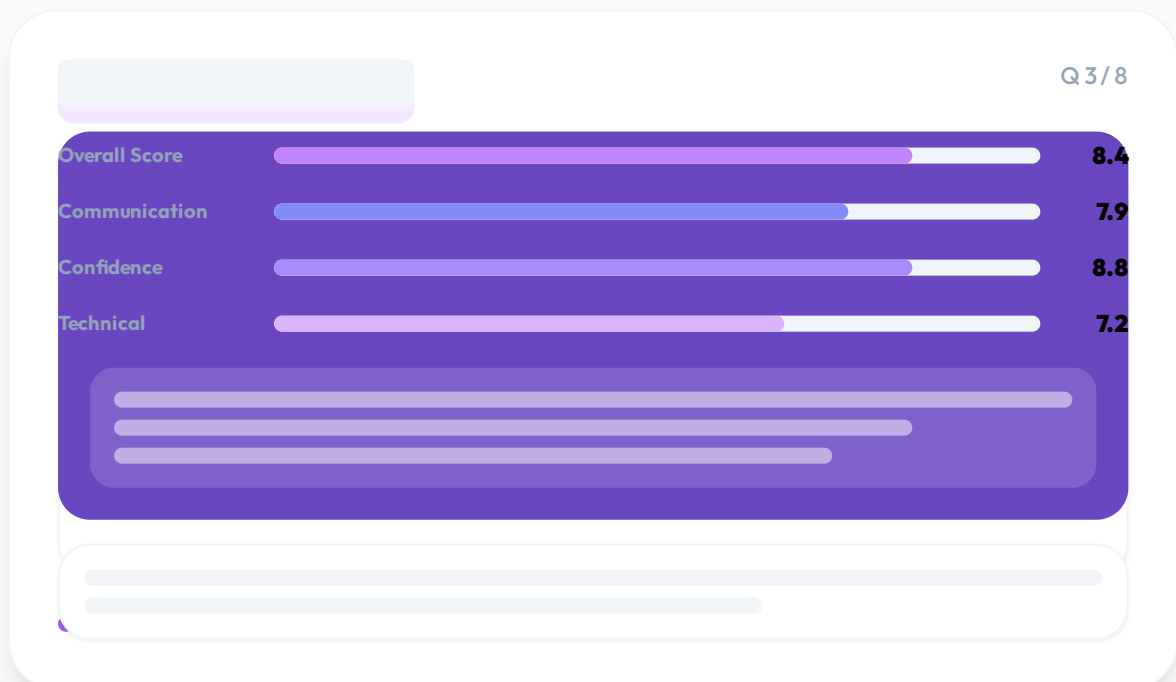

02 Practice with live AI

Face a real conversational AI interviewer that listens, responds, and adapts — asking follow-ups just like a human would.

03 Get your report

Receive a detailed AI-generated scorecard: per-question feedback, confidence metrics, filler word timeline, and coaching tips.

[▲ Why MockMate](#)

Job hunting shouldn't feel like guesswork

Most candidates get rejected by automated filters or rehearse alone with no real feedback. MockMate gives you an ATS-optimized resume, a live AI interviewer, and a detailed performance report — all in one platform.

Resume gets rejected by ATS

Don't guess what the recruiter wants. We scan your resume against the JD, find missing keywords, and auto-generate an ATS-optimized PDF/DOCX.

No honest feedback from friends

They're too kind. Our AI gives you direct, unbiased feedback on every answer — just like a real hiring manager.

Can't replicate real interview pressure

MockMate's live AI persona creates genuine conversational pressure so you're prepared for anything.

[▲ Full Interview Suite](#)

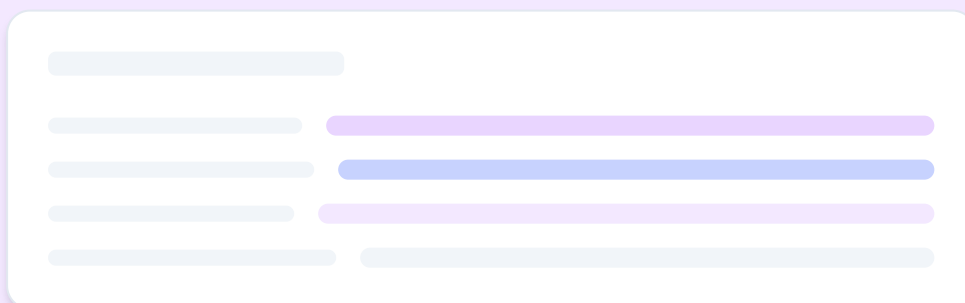

Everything you need to land the offer

From resume parsing to post-interview reports — MockMate covers the entire interview prep lifecycle in one seamless platform.

AI-Powered Performance Reports

After every session, receive a detailed breakdown of your scores across communication, confidence, technical depth, and more — with personalized coaching tips.

- ✓ Per-question scoring with AI feedback
- ✓ Emotion & confidence analysis via webcam
- ✓ Filler word detection and speech pace tracking

 Features

Built for serious interview preparation

Every feature is designed to simulate a real interview — and help you improve faster.

ATS Resume Scanner

Upload your resume and get an instant ATS compatibility score, keyword gap analysis against your target Job Description, and quantification metrics.

AI Resume Generator

Auto-generate a stunning, ATS-optimized HTML resume. Fill in missing gaps with our AI wizard and export as PDF or DOCX in one click.

Live AI Interviewer

Face a conversational AI that asks dynamic follow-up questions tailored to your resume, just like a real hiring manager.

Detailed Performance Reports

Get a full scorecard after every session: overall score, per-question feedback, behavioral analysis charts, and actionable coaching tips.

Speech & Filler Word Detection

We track words per minute, pause frequency, and filler words like "um" — and show you exactly when they happened.

Multi-Language Support

Practice in English, Hindi, or Hinglish. Choose your language and difficulty level before every session.

 **How It Works**

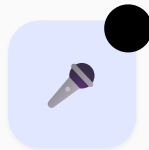

From resume to report in three steps

No complicated setup. Just upload, practice, and improve.

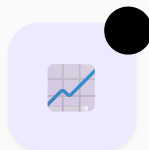

Scan & Optimize Resume

Upload your resume and get an instant ATS score. Generate a fully optimized, keyword-rich resume using our AI.
